Multigrain

Now you can order Private Labeling for our All Natural and Organic Multigrain Tortilla Chips. We carefully select the best grains nature has to offer and blend them into a crunchy, flavorful snack. These great tasting tortilla chips are made from healthful grains such as whole wheat and whole oats.

According to the USDA's Dietary Guidelines¹ "... consuming at least 3 or more ounce-equivalents of whole grains per day can reduce the risk of several chronic diseases and may help with weight maintenance."

Not only are our delicious Multigrain Tortilla Chips made from whole grains, but they are low in saturated fat and produced from all natural or organic ingredients, so you know you're only getting the best that nature has to offer.

Whole Grain

We are now making available Private Labeling for our All Natural Corn Tortilla Chips made from whole corn. Why whole grain? Because that is the way nature intended. Unlike some grain food products that use only a portion of the kernel, we purchase only the finest quality corn flour produced from the entire corn kernel.

According to the USDA's Dietary Guidelines¹ "... consuming at least 3 or more ounce-equivalents of whole grains per day can reduce the risk of several chronic diseases and may help with weight maintenance."

In addition to fruits and vegetables, whole grains are an important source of fiber and other nutrients.
